

Stacking Plates

1-1/8" Forming Hardware

For Stacking 4- or 5-Bar 1-1/8" Form Panels or Securing a Tie Anywhere Between Panels

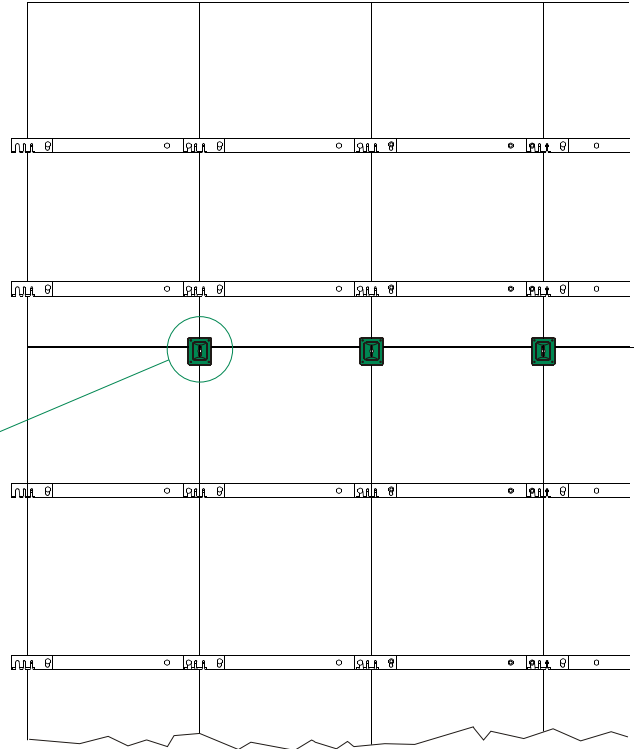

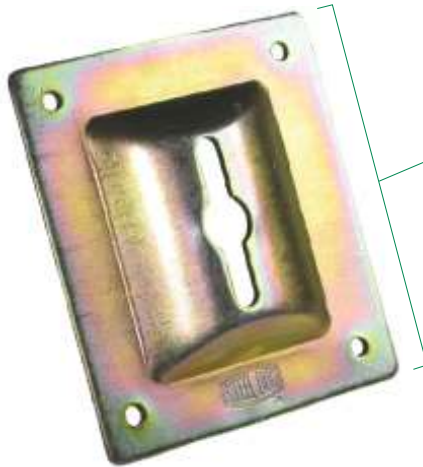

Steel Dog™ Stacking Plates are used to secure a tie at the joints between panels on the 1-1/8" plywood forming systems. Commonly used when stacking 4- or 5-bar panels between the successive courses.

- ▶ Through-hardened steel for long use
- ▶ Zinc-plated
- ▶ Double keyhole slot to orient in two directions

Product Information

Product Code.....SP-1
Qty/Box.....100
Box Weight.....35 lbs
Safe Working Load*2500 lbs

*At 2-to-1 safety factor
